Museums, Galleries, and Collections in Las Vegas

Cars, cacti, pinball machines, wax figures, and art. They do not have much in common, but you can see them all in Las Vegas. You can also see organs (the body kind), ichthyosaur bones (that is Nevada's state fossil) and a 38-caliber Colt Detective revolver used in the 1929 St. Valentine's Day Massacre. Take a ride on a super old train that moves slower than the walkers on the nearby trail. Learn way more about the human body than your gym coach ever taught you.
