**Who's Who in the Oughtred Society .....** Rod Lovett writes:

A collector born in Leicester, England, 1940 and although I used a slide rule (my trusty Aristo 0903LL) all through school and University it wasn't until the late 1990's with retirement beckoning that I started collecting and quickly became hooked. For the first five years of my teaching career, teaching Physics at Goldsmiths' College, I continued to use my slide rule but moving into the teaching of Computer Science at Kingston Polytechnic (later Kingston University) in the late 1960's, my slide rule remained unused for the next thirty years. Using Perl, the programming language I first learned as a Unix system administrator, I now spend a significant amount of time developing, extending, and maintaining various slide rule databases and search facilities as well as moving into editorship, co-editing the Slide Rule Gazette with Peter Hopp.

**On the lighter side** .....

**Wise words** .....

Asking "Who should be the boss?" is like asking "Who should be the tenor in the quartet?" Obviously the man who can sing tenor.
